ABOUT OUR COMPANY

Established in the year 1980, Welflex Polymer Industries Pvt. Ltd, Bangalore, are one of the pioneers in manufacturing molded and extruded rubber parts for various applications catering to some of the leading OEMs.

Over the years, the company has evolved to handle most intricate profile sections and diverse molded shapes, maintaining stringent quality standards.

Our design engineers ensure that all our products are manufactured in a cost effective way for a long term sustainability.

Our research and development team continuously surveys and researches on new technology updates in the rubber parts industry to meet customer expectations.

The company's focus on quality and continuous improvements over the years, has helped sustain strong relationships with customers.

Message to our valued customers

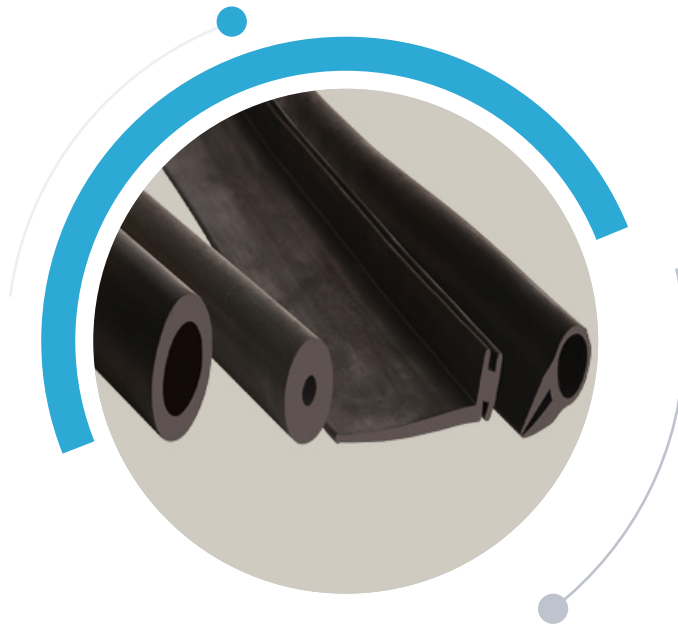

"We bring to your understanding that effective from the year 2018, there is a change of management team at Welflex Polymers Private Limited and under the new management, our company is renamed as Welflex Polymer Industries Private Limited."

Yours sincerely,

Shivkumar . L

Managing Director

“

MISSION & VISION

Our mission is to nurture and sustain long-term relationships with our clients, providing cost effective products using best manufacturing techniques.

Our vision is to strive continuously to be the preferred industry partner for supply of quality rubber parts.

Quality is what customers value...

Welflex Polymer Industries maintain high standards of quality at every stage of process to ensure zero defect products. Stringent inspection and monitoring is adopted at all stages of manufacturing processes. We exceed customer satisfaction by continuous improvements in quality, offering optimal costs and on time delivery assurance.

Our company has been certified by M/s.UKAS, UK for ISO 9001: 2015 version.

INFRASTRUCTURE

Our state-of-art facilities include

- Well equipped manufacturing unit with in house tool room.
- A laboratory with equipment for in process quality inspection, testing and trials.
- Warehousing and Packaging facilities to store all kinds of raw materials and finished products.
- 100% power backup.

PREMIUM RAW MATERIALS

Superior quality raw materials used in manufacturing

Some other top-notch raw materials

- PVC
- ABS
- PMMA
- Nylon (6, 66, glass fibre)
- Polypropylene
- Polycarbonate

Elite Compound Formulation

Post Cured

- Viton
- GLT Viton
- NHBR
- Polyacrylic
- Fluorosilicon
- FFKM

Non Post Cured

- PVC + NBR
- EPDM
- NBR
- Silicone
- Neoprene
- FFKM

OUR PRODUCTS

1. Molded Parts

TEAR TRIM O RINGS

HIGH PERFORMANCE O RINGS

COLOURED O RINGS

FOOD GRADE SILICON

HYDRAULIC SEALS

HYDRAULIC V SEALS

OIL SEALS & METAL BONDED

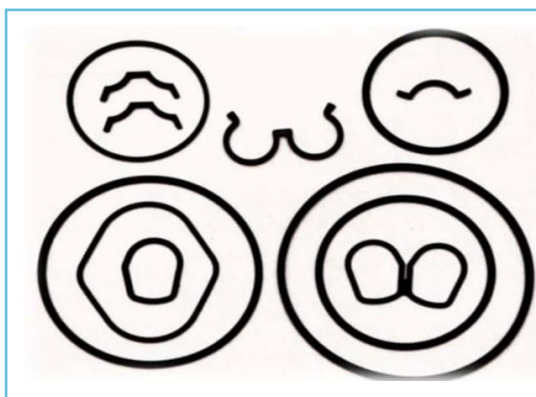

SEALING PADS FOR PNEUMATICS

HNBR SEAL FOR HIGH PERFORMANCE APPLICATION

HOSE RUBBER

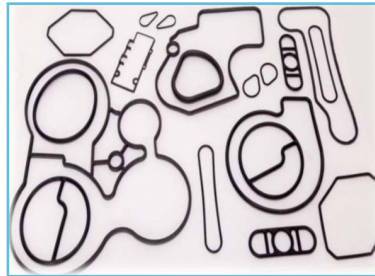

GEAR MOTOR SEALS

OTHER COMPONENTS

BELLOWS, BOOTS & MOUNTS

PROFILE GASKETS FOR FUEL & AUTOMOBILE APPLICATIONS

DIAPHRAGMS

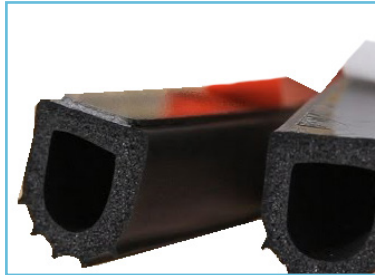

GROMMETS & NUTRINGS

2. Extrusions
